# Kit-Builds

## A NEW WAY TO VOLUNTEER

Our kit build program is a meaningful, team-building volunteer opportunity helping companies boost employee engagement and foster teamwork. Employees work together to assemble materials on-site for a community partner. Aligning your company's philanthropic values with volunteerism gives your employees the opportunity to give back to the community while enhancing the company's reputation as a community leader. Assembly of the kits can take anywhere from 30 minutes to two hours depending on the type of kit, number of volunteers, and quantity of kits you are assembling.
